Mr. Johnson, who represents the Albert Bolt Clothing Co. of Cincinnati, Ohio, was in town Saturday registered at the Huntersville Hotel.

Miss Lucy Kinard, who is teaching in the family of Col. Levi Gay, accompanied by Miss Lynn Gay, paid her friends of Huntersville a welcome visit last Saturday and Sunday.

Col. D. O'Connell, of Lauray's Mill, was in Huntersville Saturday night. The Colonel looks straight down his nose and with a smile says they say the Green River will have the railroad for a while now. We say let it come, it will make the Green River flourish like the green bay tree and blossom like the rose.

A congressional meeting was held here last Sunday to open the deliberated resignation of Rev. W. T. Price as pastor of this church. Upon due consideration thereof, it was unanimously resolved not to accept the resignation, as they did not desire to dissolve the relationship heretofore existing between them. It was further resolved to retain him as their pastor.

We promised not to say anything more about the rail road, but since the engineers went down the river in a boat, and the White Sulphur spring has gone up Salt River, as a matter of curiosity, we would like to know how long Green River will take to reach the sea. For the past two years we have been promised that in ten days the matter would be definitely settled as to the route and as ten days has been the most time of time, we hope that the rail road will stay on the Green River for that time, at least. What it might be better for some to have the matter settled at once, still that would deprive a great many people of their ten day pleasure. We, therefore, do not disapprove of the idea of changing the route as often as possible, so that all our people for a season, though short, may enjoy the pleasure of living on the railroad. We predict that after all have participated in the inauguration of the rail road, there will be a full for, say, ten days and then the rail road will come as a thief in the night, and we will be made to the fact, when too late, that it is not on our location, but built where we least expected it.

M. F. Herold is being urged by his many friends as a candidate for matrimony, but Millard fears he is rather young to assume the responsibilities of this important position. Watch out, Millard, and don't let the girls see your teeth or they will tell how old you are.

The Core Hill correspondent says he is as much in the dark as that family was when the light went out, for he does not know any thing about that paragraph below his letter a few weeks ago. He thinks that if some person don't look after the Editor in the near future he will be lost in verbal profusion.

The Lamp that lights the way to Good Health is a bottle of the greatest of all blood purifiers—Johnston's Sarsaparilla. This great blood purifier, cures all diseases by removing from the system, the conditions which produce them. It expels all poisons and impurities from the blood. It acts upon the nervous system, particularly upon those nerves belonging to the great organs of the body; therefore, it causes the heart to beat with greater force, the lungs to take in more oxygen and to expel more carbonic acid; it induces the kidneys to send off more of the poisonous excretions from the blood; the bowels to have more regularity and healthfulness in their action; the sweat glands to throw out more impurities. One dissolved bowl of all purges will tell you what it can do for you. Write for the full particulars.

Prisoners in Their Quarters. Our chickens have been dying from some cause we know not what until last Saturday evening when a nice young fellow, seemed almost dead, but had been eating the same food as the others. Upon examination we found in the stomach twenty-five Winchester primers, one large olive sprig, one small one, and a large piece about the size of a small cast bottom in one very narrow. This showed our suspicions and caused us to look after the others that had died of which only one could be seen. This one had eighteen primers and a tiny piece like the one described above. The prisoners were old ones, sent down from the county jail. About half were Winchester and the rest shotgun games. This was sent to some quality hoppers and a lot of old primers. The last one that died was the fourth which we have but found this morning.
